

About PIDA and PIDA-PAP 2

PIDA-PAP 2 is the second PIDA priority action plan for the period 2021-2030 serving AU vision. This portfolio is based on an inventory of projects proposed by Regional Economic Communities (RECs) and Member States (MS).

In order to select, within these proposals, the projects that best reflect the AU vision within the framework of Agenda 2063 while balancing the aspirations of the respective RECs and MS, a clear planning process (identification, selection and prioritization of projects) was established and validated by the Specialized Technical Committee at its meeting in Cairo on 24 November 2019.
